# Flail Mower

AVAILABLE FOR 2T-30T

The Aussie Buckets Flail Mower also known as a Slasher is the ultimate land-clearing tool, designed for efficiently cutting grass, shrubs, and saplings in various environments, including properties, roadsides, and ditches. Equipped with interchangeable Y-flail or hammer flail blades, this mower offers versatility, allowing operators to switch between light vegetation cutting and heavier brush clearing with ease.

Power and speed are critical for effective performance, which is why our Flail Mower is driven by a high-torque plunger motor that directly powers the main shaft, ensur-

ing zero power loss through cogs or belts. This guarantees consistent cutting force, even in demanding conditions.

Built for safety and durability, the unit features a rear safety chain guard, minimising debris spread and exit velocity, keeping worksites cleaner and safer. The blades are fully replaceable, ensuring long-term usability and cost efficiency.

Designed for landscaping, agriculture, and roadside maintenance, the Aussie Buckets Flail Mower provides powerful cutting performance, reliability, and operator safety, making it a must-have attachment for heavy-duty vegetation management.

## Specifications

Tonnage	Weight (kg)	Total Length (mm)	Cutting Length (mm)	Flow Rate (lpm)	Pressure (Bar)	Max Cutting Diameter (mm)	Blade Amount	Speed (rpm)
2 - 4	230	1073	531	40 - 45	180	80	24	3500
5 - 9	345	1373	931	40 - 45	200	80	36	3500
10 - 16	500	1451	931	90 - 100	250	100	36	3000
17 - 30	595	1951	1331	90 - 100	250	100	52	3000

### Features

#### Direct Drive Shaft

To ensure maximum output and no loss of power through cogs/belts.

#### Rear Chain Safety Guard

Reduces the spread and speed of which material exits the rear of the unit.

#### Interchangeable/Replaceable Blade Options

Offering 2 different blade options; Y Flail Blade which is better for cutting lighter material such as long grass; and the Haer Flail for chipping heavier material such as saplings, bushes/shrubs.
