Mud Bucket

AVAILABLE FOR 1.2T-50T

Our Mud Bucket, also known as Batter, Trimming, Grading, or Cleaning Bucket, combines efficiency with durability. Featuring a reversible bolt-on edge, reinforced side plates, floor strips, and gussets, it minimizes wear and downtime. Constructed from 400-grade steel with 345 wear-resistant plates, custom grades, including HARDOX 450, are available upon request. The Heavy Duty Mud Bucket is the perfect solution for all grading/levelling and bulk material handling requirements.

Mud Buckets are engineered for versatile applications, from bulk material handling to precise grading, levelling, and battering tasks like trench side cutting and dam construction.

Built with your site requirements in mind, they feature a wide profile with a reversible bolt on edge suited for controlled work and large-scale clean-up operations.

Designed for durability and performance, these buckets provide reliability in challenging environments and reduce downtime with fewer replacements or repairs.

For the those more demanding or abrasive environments we can also customise the wear packing on the mud bucket to include additional high tensile strength wear strips and skin liners in strip or plate style.

Specifications

Tonnage	Width	Weight (kg)	Volume (m ³)
1.2-1.8	980	109	0.08
2-2.7	1000	120	0.12
2.8-4	1000	143	0.15
2.8-4	1200	153	0.18
4.5-6	1200	197	0.22
4.5-6	1500	220	0.26
6.5-9	1500	380	0.54
10-14	1500	550	0.76
10-14	1800	650	0.85
15-18	1500	630	0.9
15-18	1800	725	1.1
15-18	2000	815	1.3
20-24	1800	945	1.37
20-24	2000	1000	1.5
25-28	1800	1205	1.5
25-28	2000	1300	1.75
30-36	2000	1550	2
30-36	2200	1650	2.3
38-50	2000	1900	2.5
40-50	2200	2010	2.8
40-50	2500	2180	3.2

Features

Dual Radius Design

Reduced drag and wear, increasing productivity and cycle times.

Reinforced Wear Plating

Sidewall wear plating (2T+) and underbelly strips (6.5T+) preventing wear, extending bucket lifespan.

Reversible Bolt-On-Edge

Get extended lifetime from the bolt on edge by reversing it after it wears down.
