Finger Grab

AVAILABLE FOR 1T-25T

The Aussie Buckets Finger Grab is designed to handle materials of various sizes with ease and enhanced productivity. Designed for versatility and durability, this attachment is available in both fixed and rotating models, making it suitable for various excavator setups, including tilt rotators, quick and tilt hitches.

The showcased model features shorter hoses and specific distribution points tailored for our tilt rotators, while we can adjust this setup according to your requirements.

The finger grab is built with solid steel offering full interlocking capabilities.

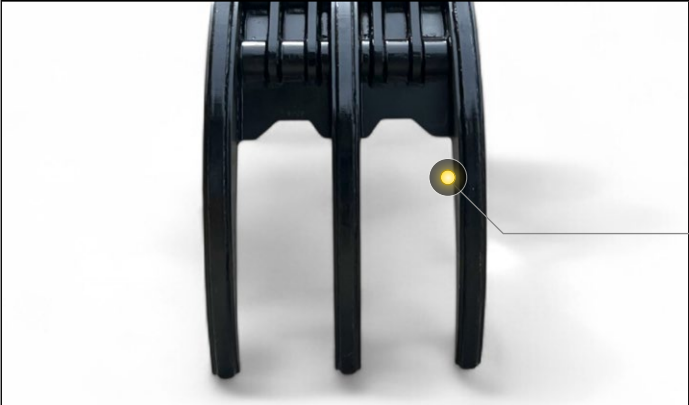

The hydraulic system includes a central ram and link arms to ensure an even grabbing movement, providing efficient and smooth operation.

All Aussie Buckets Finger Grabs come with a 5-year warranty and are engineered to perform under demanding conditions, providing a reliable attachment for your excavator.

Specifications

Tonnage	Weight (kg)	Lesser Finger Width (mm)	Greater Finger Width (mm)	Max Opening (mm)	Cylinder Force (t)	Pressure (bar)	Flow (L/min)	Finger Quantity
1 . 0 - 1 . 9	110	255	323	901	2	110 - 140	4 - 10	5
2 - 2 . 9	160	330	410	1098	3	110 - 140	10 - 30	5
3 - 3 . 9	290	366	450	1271	3	110 - 140	20 - 30	5
4 - 5 . 9	350	376	474	13324	6	160 - 200	25 - 40	5
6 - 10	450	404	504	1497	9	160 - 200	40 - 45	7
11 - 17 . 9	812	505	760	1747	12	180 - 230	45 - 55	7
18 - 25	980	688	1000	1944	13	180 - 230	50 - 75	7

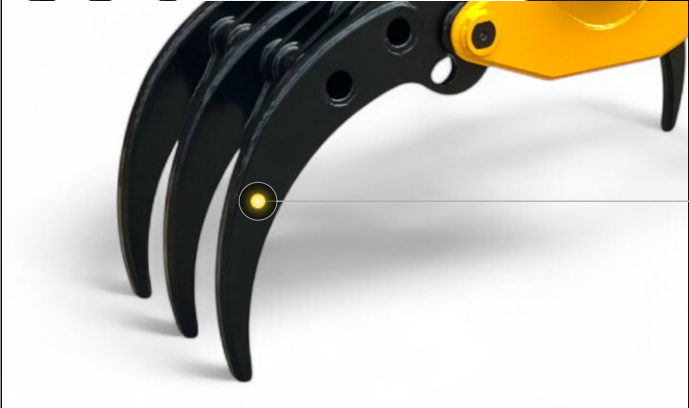

Features

Full Interlocking Capabilities
Coming in a tine style configuration, this grab can close right in on itself and open nice and wide, for versatility across a diverse range of material sizes.

Superior Handling
Utilising a centralised Hydraulic Ram with a manifold block with a balance valve to ensure a secure hold, as well as link arms to ensure an even grabbing motion.

Solid Finger Construction
Built from a durable solid plate and reinforced to ensure maximum longevity of the unit, giving the operator the ability to throw these into any situation.
