# Rotating Multipurpose Grab

AVAILABLE FOR 3-45T

The Aussie Buckets Rotating Multipurpose Grab, also referred to as a Grapple, Rock Grab, Rotary Grab, or Demolition Grab, is designed for versatile and demanding applications, including site cleaning, demolition, recycling, forestry, and bulk material handling.

Built with an interlocking 5-finger claw design, this attachment offers exceptional grip and precision for handling various materials, with replaceable teeth and reinforced wear protection to enhance durability.

Key features include dual independent rams with self-centering capabilities, accommodating all shapes and sizes of materials.

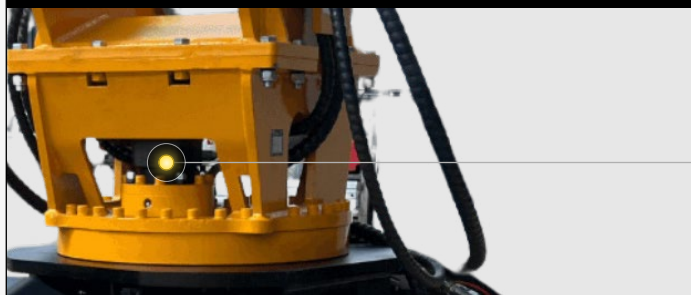

The powerful rotating motor, sourced from trusted German brands Worm, Parker, and M+S, provides 360° continuous rotation, enabling flexible positioning for efficient handling of materials. Its high-performance design and ease of use make it a trusted choice for contractors across forestry, recycling, landscaping, and general contracting industries.

# Specifications

Tonnage	Max Open (mm)	Min Open (mm)	Weight (kg)	Motor	Motor Pressure (Bar)
3-3.9	1100	80	220	WORM	90-110
4-6	1250	120	395	PARKER	110-120
7-10	1470	120	430	PARKER	110-120
11-15	1650	145	795	M+S W/ RELIEF VALVE	120-140

## Features

### American/German Rotating Motors

High-quality German and American engineering ensures durable, precise, and reliable operation.

### Dual Independent Rams

Enhances performance with better control, strength, and durability. Independent rams offer a self-centered grip on irregular materials.

### Five-Finger Interlocked Webbed Design

Securely handle various objects with maximum capacity. Complete jobs in a fraction of the time.
